-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of Group II, claims 8 and 10-21, in the reply filed on 05/08/2007 is acknowledged. The traversal is on the ground(s) that, as amended, "all claims share this technical feature which provides a contribution over the prior art." This is not found persuasive because the technical feature shared by the claims still does not provide a contribution over the prior art, in view of the references cited below.

The requirement is still deemed proper and is therefore made FINAL.

2. Claims 1-7 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 8 and 10-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 1713

5. The claims are generally indefinite, failing to conform to current U.S. practice.

They are replete with grammatical and idiomatic errors including the following:

The preamble of the independent claim 8, from which the balance of the claims depend, recited a "dried power"?

Claim 8, in line 1 on page 4 of the amendments, recites the limitation "the step of manufacturing of the graft copolymer latex". However, there is insufficient antecedent basis for this limitation in the claim as this point.

The claims recite several "parts by weight" of components , but provide no bases for the parts by weight. Are these parts by weight based on 100 parts of any particular stage/step?

Also, claim 8, in line 13 of page 4 of the amendments recited "**oparts** by weight"?

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 8 and 10-21 are rejected under 35 U.S.C. 102(b) as being anticipated by Oshima et al. (USPN 5,206,299 or USPN 5,362,804) or Bertelo et al. (USPN 5,773,520).

Each of Oshima et al. [(col. 3, line 22- col. 4, line 59 of '299) or (col. 3, lines 21- 35 and coll. 7, lines 16-35 of '804)] or Bertelo et al. (col. 1, line 56 to col. 2, line 35)

Art Unit: 1713

teach spray dried powders from graft copolymer latexes prepared from three stage surfactant stabilized multistage polymerizations of vinyl aromatic compounds, vinylcyan compounds, derivatives of methyl methacrylate, and alkyl acrylate monomers, with each preceding stage been polymerized with both cross-linking monomers and grafting monomers consistent with those recited in the present claims.

Even though applicant's claims are indefinite, the requirements for rejection under 102(b) are believed to be met.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dr. Kelechi C. Egwim whose telephone number is (571) 272-1099. The examiner can normally be reached on M-T (7:30-6:00).
